

Safeguards in 2022

Implement effective
safeguards and
draw soundly
based safeguards
conclusions for all
States

Verify and monitor
Iran's nuclear-related
commitments under
the JCPOA

Further develop and align
safeguards approaches,
processes, tools and
methodologies for the
implementation of safeguards

Further strengthen cooperative
relationships with States and
enhance partnerships in support of
IAEA verification capabilities

Encourage and assist States
to amend or rescind their
original Small Quantities
Protocols and to bring into
force Additional Protocols

Deploy modernized
safeguards technologies,
infrastructure and equipment

Maintain enhanced
readiness to return
to the DPRK if and
when requested
