

Tzu Yen (Yvonne) Lin

Nuclear Engineering Intern, Nuclear Power Engineering Section, IAEA

Tzu Yen (Yvonne) Lin has a bachelor's degree from the University of Toronto in Mechanical Engineering and a master's degree in Nuclear Engineering from Ontario Tech University. She also holds certificates in Nuclear Engineering and Engineering Business from the University of Toronto. Prior to her work at the IAEA, she worked as a Graduate Researcher at Ontario Tech University and held positions as a Research Assistant and as a Teaching Assistant throughout her university career. She was a Mechanical Engineering intern at EM Dynamics Inc. in Scarborough, Ontario, Canada and worked on a project studying the impact of nuclear decommissioning on communities through the Nuclear Design Laboratory at Ontario Tech University. She was awarded an Undergraduate Research Award from the Natural Sciences and Engineering Research Council of Canada in 2020. In 2021, she was granted an IAEA Marie Skłodowska-Curie Graduate Research Fellowship, and she has been an intern at the IAEA in the Nuclear Power Engineering Section since December 2022.
