

Jamila Al-Suwaidi

Dubai Health Authority (DHA), United Arab Emirates

Jamila Al-Suwaidi is Consultant Medical Physicist at the Dubai Health Authority (DHA) in the UAE. She is also Project Director for managing scientific projects and research related to radiation medicine and Chair of the DHA Radiation Protection Committee. Before her current appointment, she was Director of Clinical Support Affairs at the Dubai Hospital at the DHA. Ms Al-Suwaidi was awarded the UAE Presidential Award in Sciences in 2012 and the Sheikh Hamdan Bin Rashid Al Maktoum Award for Medical Sciences in 2014. Currently, Ms Al-Suwaidi acts as the DHA's official focal counterpart for international organizations, including the IAEA and the World Health Organization (WHO). She also collaborates with national and international organizations to establish scientific research and projects to improve quality in diagnosis, therapy and safety of patients in the clinical and medical practices. Ms Al-Suwaidi participates in training and educational radiation medicine programs at the DHA and in cooperation with national and international organizations.
