

Simone Richter

Australian Nuclear Science and Technology Organisation (ANSTO), Australia

Simone Richter is Group Executive for Science and Technology and Landmark Infrastructure at the Australian Nuclear Science and Technology Organisation (ANSTO). Ms Richter is a senior science manager with a distinguished career in nuclear and accelerator physics. At ANSTO she oversees the research and infrastructure programs accessed by hundreds of national and international scientists and industry partners. Her role is to foster innovation in research to support health, the environment, advances in the nuclear fuel cycle, and the development of future nuclear science infrastructure and capabilities in Australia. Ms Richter is also Founding Director of one of Europe's largest research facilities - Facility of Antiproton and Ion Research (FAIR) in Germany. She holds a PhD in physics from the Technical University of Darmstadt in Germany.
