

Djarot Sulistio Wisnubroto

National Nuclear Energy Agency of Indonesia (BATAN), Indonesia

Djarot Wisnubroto is Chairman of the National Nuclear Energy Agency of Indonesia (BATAN), which is the Indonesian government's research and development agency for nuclear technology. He was the main researcher on radioactive waste management and led the Centre for Radioactive Waste Management (CRWM) for BATAN from 2006 to 2010. BATAN and its chairman advise the government of Indonesia on policy and strategy related to nuclear technology.

BATAN's work includes the promotion of public acceptance for nuclear technologies, the provision of services for irradiation, and radioactive waste management.
