

Mission Objective: Compromise Nuclear Facility

Pacific Northwest
NATIONAL LABORATORY

Proudly Operated by **Battelle** Since 1965

Using Virtual Reality to Improve Cyber Security and Physical Protection of Nuclear Material and Nuclear Facilities

- High sense of realism
- Engages multiple parts of the brain
- Increased retention
- Aids communication between cyber and physical security experts

Browse thru this scenario that illustrates how a compromise of a nuclear facility could occur without proper security or
Visit our booth to experience virtual reality for yourself!
