

60 Years

IAEA

*Atoms for Peace and Development*

**Session I:**

# The IAEA and its Technical Cooperation Programme

*Delivering results for peace and development*

**Dazhu Yang**

**Deputy Director General and Head of the Department of Technical Cooperation**

# Session Objectives

To provide an overview of the IAEA and the technical cooperation (TC) programme:

- What is the IAEA's TC programme?
- Management of the TC programme
- Delivery of the TC programme

# IAEA MANDATE

To accelerate and enlarge the contribution of atomic energy to **peace, health and prosperity** throughout the world.

# IAEA

International Atomic Energy Agency

# Historical Milestones

1957

IAEA Statute entered  
into force

2005

Nobel Peace  
Prize

As **an autonomous international organization** within the United Nations system, IAEA is the global centre for cooperation in the nuclear field.

# Atoms for Peace and Development

Yukiya Amano  
Director General, IAEA

“Our motto is Atoms for Peace and Development. Transferring nuclear technology to developing countries, working to prevent the spread of nuclear weapons, and serving as a global platform for nuclear safety and nuclear security, are core Agency business and most important areas of our work.”

# IAEA at A Glance

170  
Member States  
(as of June 2018)

2,500+ staff  
from  
over 100  
countries

- 
- HQ in Vienna
  - Laboratories in Seibersdorf, Monaco and Vienna.
  - Regional offices in Toronto and Tokyo.
  - Liaison offices in New York and Geneva

# Main Areas of Work

Science and Technology

Safety and Security

Safeguards and  
Verification

# Nuclear Safety and Security

Both aim to protect persons, property, society, and the environment, from ionising radiation.

## Nuclear Safety

- Prevent accidents and respond to and mitigate their consequences should they occur.
- “Safety Comes First”

IRRS (Integrated Regulatory Review Service) team members and staff from the Chinese National Nuclear Safety Authority to review safety upgrades carried out as part of work improve safety of Fuqing Nuclear Power Plant. (Photo Credit: NNSA)

## Nuclear Security

- Control and protect nuclear and radioactive material and facilities from falling into the wrong hands.

Experts to test a radioactive source tracking system at an equipment fabrication facility outside Hanoi, in Viet Nam.

# Safeguards and Verification

The IAEA Statute authorised the Agency to establish and administer safeguards.

To deter the proliferation of nuclear weapons, IAEA provides:

- Early detection of the misuse of nuclear material or technology.
- Credible assurance to the international community that States are honouring their safeguards obligations to use nuclear material and other nuclear-related items subject to safeguards only for peaceful purposes.

Seals: Checking the Dates When the Seal Was Opened and Closed.

Swipe Check: Collecting and Analysing Environmental Samples for Nuclear Verification

# Nuclear Science and Technology

- The IAEA provides support and assistance to over **140 countries/territories** including 35 least developed countries
- The IAEA's Technical Cooperation Programme serves as a major vehicle for the transfer of nuclear science and technology to all Member States

## SUSTAINABLE DEVELOPMENT GOALS

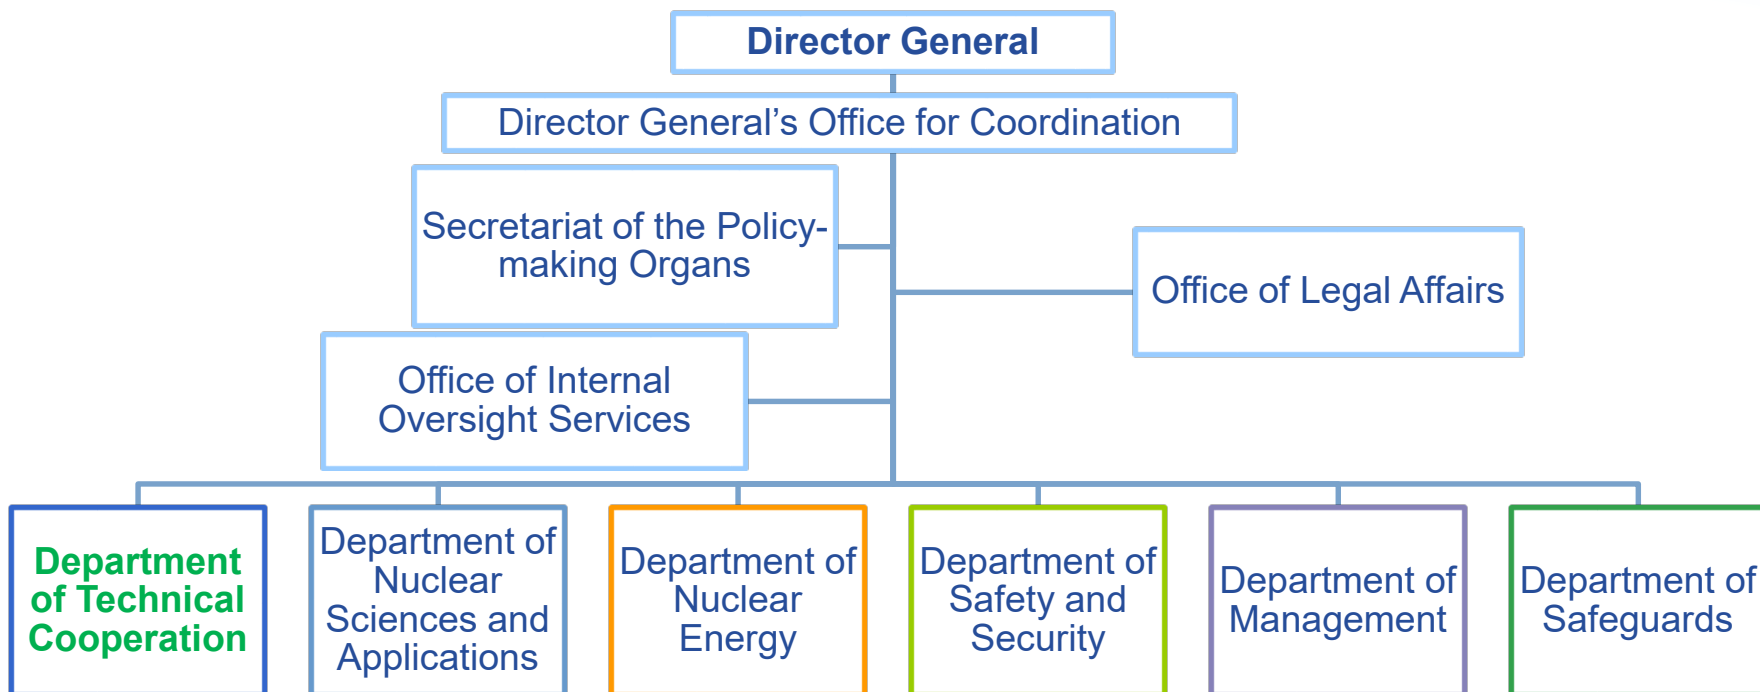

IAEA makes direct contributions to **9 out of 17 Goals** through nuclear science and technology

# TC Strategic Goal

To increasingly promote tangible socio-economic impact by contributing directly in a cost-effective manner to the achievement of the major **sustainable development priorities** of each country.

# IAEA Organizational Structure

# Technical Cooperation Department

- Interface between Member States and the Secretariat
- Management of TC programme in cooperation with technical Departments
- Vehicle to support programme implementation and monitoring across the IAEA

# What services does the TC Programme provide?

Training  
fellowships &  
scientific visits

Equipment &  
materials

Training courses  
& workshops

Capacity building  
Networking  
Knowledge sharing  
Partnership building

TC Programme aims to support  
sustainable socioeconomic  
development in Member States

**Technical Cooperation  
(TC) Projects**

Expert  
assistance

Conferences,  
symposia &  
seminars

# Contributing to Sustainable Development

## Water & Environment

## Energy

## Health & Nutrition

## Food & Agriculture

## Radiation Technology

## Safety

## Knowledge Management

# Where do we work? (2017)

Expert and lecturer assignments **3641**

Fellowships and scientific visits **1979**

Participants in regional and interregional training courses **3913**

**EUROPE**

**ASIA AND THE PACIFIC**

**LATIN AMERICA**

**AFRICA**

Regional and interregional training courses **222**

**807** active TC projects at year end

# National TC Projects

- Need/country driven
- Address problems/needs at the national level
- Build on or establish infrastructure
- May involve more than one counterpart / institution

# Regional TC Projects

- Build on existing national infrastructure
- Address problems/needs at the regional level
- Promote Technical Cooperation among Developing Countries (TCDC)
- Mainly targeting human resource development
- Create links between regional institutions
- Aim to share information / expertise and experience

# Interregional TC Projects

- Address problems / needs of several states in different regions
- Address transboundary issues
- Transregional, global, capacity building
- Deliver support across national and regional boundaries
- Small number of projects
- Mainly targeting human resource development

# Contributing to sustainable development: cancer

PACT supports IAEA Member States in integrating radiotherapy into a comprehensive cancer control programme through:

- Assessing national cancer control capacities through impact and follow-up activities
- Supporting resource mobilization for cancer related activities
- Partnerships building to support the implementation of cancer related TC projects
- Other relevant activities

# TCP 2017 actuals by programme area

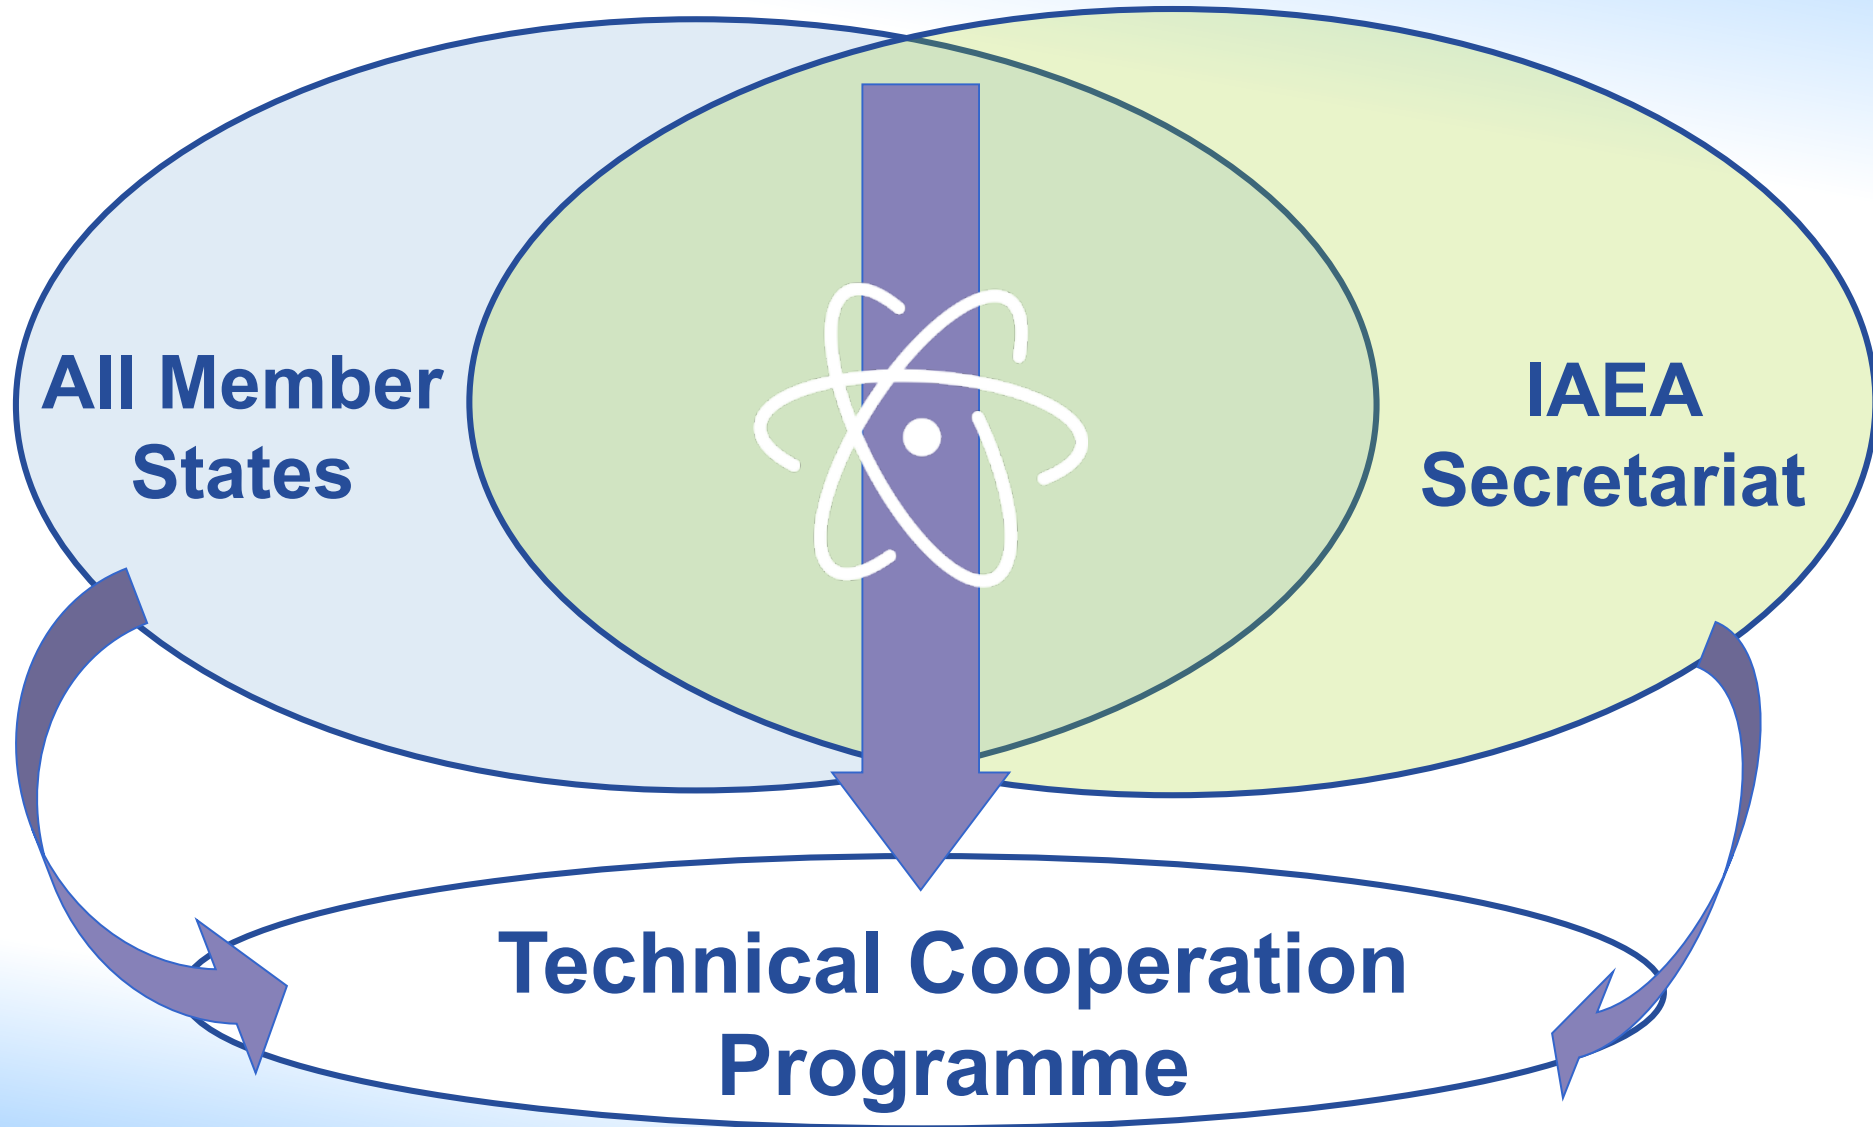

144 countries  
& territories

807 active  
projects at  
year's end

Implementation  
rate: 86.3%

€  
85 023 445

# A shared responsibility

Technical  
Cooperation  
Programme

*Technical cooperation:  
delivering results for  
peace and  
development*
