

## Mr Philippe Scholtès

Managing Director, Programme Development and Technical Cooperation, United Nations Industrial Development Organization (UNIDO)

Philippe Scholtès is Managing Director of the Directorate of Programme Development and Technical Cooperation at UNIDO. In this capacity, he oversees the technical assistance programme of UNIDO — a portfolio of more than 660 projects with a total value of USD \$1.4 billion, delivered by 350 staff and 1400 project personnel at the UNIDO Headquarters in Vienna, and with a presence in 100 developing and emerging countries.

Through this technical assistance, the Directorate promotes UNIDO's mandate of Inclusive and Sustainable Industrial Development (ISID). It rests on four Departments: Energy, Environment, Agribusiness, and Trade, Investment and Innovation. A fifth Department, Programmes, Partnerships and Field Integration leverages these resources in joint operations with other UN agencies, private firms, investment banks and development finance institutions under execution in a growing series of national programmes for country partnerships.

Prior to his role as Managing Director, Scholtès was Director of UNIDO's Agribusiness Development Department; he also served as UNIDO Representative in Viet Nam and Regional Director for South Asia in New Delhi, India. Scholtès holds a MSc degree in engineering and a MSc degree in economics. He has published works in the fields of economics, energy economics and industrial organization, among others.
