## AFRA VISION

To be the leading regional organization in Africa and the key vehicle for IAEA Member States in Africa for the effective promotion and coordination of peaceful applications of nuclear science and technology for socioeconomic development on the African continent.

## STRATEGIC GOALS

The AFRA goals are:

**Goal 1:** To enhance the sustainable contribution of nuclear science and technology to meet the development needs and interests of Member States.

**Goal 2:** To entrench the culture of mutual assistance and regional cooperation for the effective utilization of available nuclear expertise and infrastructure.

**Goal 3:** To deepen the culture of nuclear safety and security at regional and national levels in the gainful exploitation of nuclear science and technology.

**Goal 4:** To continuously interact with and create awareness in decision makers, civil society,

users and the general public of the benefits of the peaceful application of nuclear science and technology.

**Goal 5:** To institute good governance and excellence in management of AFRA activities in the region.

## AFRA REGIONAL STRATEGIC COOPERATIVE FRAMEWORK (2019-2023)

The AFRA Regional Strategic Cooperative Framework (RCF) is the principal planning tool for the establishment of regional cooperation priorities and the development of AFRA regional cooperative programmes. The new RCF will provide the frame of reference for the formulation of the AFRA regional programme in tandem with the Sustainable Development Goals. It will be the main modality for the planning and programming of AFRA regional projects focusing on the following thematic areas:

- Food and agriculture
- Human health and nutrition
- Radiation safety
- Human resource development
