Technical Meeting on the IAEA Nuclear Graphite Knowledge Base

**IAEA Headquarters
Vienna, Austria**

5–6 November 2020

Ref. No.: EVT1904139

Information Sheet

Introduction

Established in 1999, the International Atomic Energy Agency's (IAEA's) Nuclear Graphite Knowledge Base (NGKB) seeks to preserve and further expand the scientific information on the physical, chemical, mechanical and other properties of nuclear graphites relevant for nuclear power, nuclear safety and other nuclear science and technology applications. The data archive it contains has proven invaluable to the nuclear graphite community, and it is currently supporting a coordinated research project on irradiation creep in nuclear graphite along with a number of individual Member State research and reactor-life-extension activities. Originally developed and maintained by the IAEA's Department of Nuclear Sciences and Applications, the knowledge base was transferred to the Department of Nuclear Energy in 2010.

Objectives

The objective of the event is to provide the participants with an opportunity to report on activities in Member States related to nuclear graphite and on possible contributions to the NGKB. The action matrix for the NGKB will be reviewed and updated. Plans to further develop the NGKB will also be formulated, potential new members will be identified and the activities for the next year will be

planned.

Target Audience

The event is targeted at the appointed liaison officers for the participating Member States, representatives of the commercial entities that are sponsoring the NGKB and a number of observers from potential new participating Member States or suitably qualified individuals who have expressed an interest in contributing to the project.

Working Language(s)

English.

Participation and Registration

All persons wishing to participate in the event have to be designated by an IAEA Member State or should be members of organizations that have been invited to attend.

In order to be designated by an IAEA Member State, participants are requested to send the **Participation Form (Form A)** to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) for onward transmission to the IAEA by **31 August 2020**. Participants who are members of an organization invited to attend are requested to send the **Participation Form (Form A)** through their organization to the IAEA by above deadline.

Selected participants will be informed in due course on the procedures to be followed with regard to administrative and financial matters.

Please note that the IAEA is in a transition phase to manage the entire registration process for all regular programme events electronically through the new InTouch+ (<https://intouchplus.iaea.org>) facility, which is the improved and expanded successor to the InTouch platform that has been used in recent years for the IAEA's technical cooperation events. Through InTouch+, prospective participants will be able to apply for events and submit all required documents online. National authorities will be able to use InTouch+ to review and approve these applications. Interested parties that would like to use this new facility should write to: InTouchPlus.Contact-Point@iaea.org.

Expenditures and Grants

No registration fee is charged to participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event.

The application for financial support should be made using the **Grant Application Form (Form C)** which has to be stamped, signed and submitted by the competent national authority to the IAEA together with the **Participation Form (Form A)** by **31 August 2020**.

Venue

The event will be held at the Vienna International Centre (VIC), where the IAEA's Headquarters are located. Participants must make their own travel and accommodation arrangements.

General information on the VIC and other practical details, such as a list of hotels offering a reduced rate for IAEA participants, are listed on the following IAEA web page:

<http://www-pub.iaea.org/iaeaevents/GeneralInfo/Guide/VIC>.

Participants are advised to arrive at Checkpoint 1/Gate 1 of the VIC one hour before the start of the event on the first day in order to allow for timely registration. Participants will need to present an official photo identification document in order to be admitted to the VIC premises.

Visas

Participants who require a visa to enter Austria should submit the necessary application to the nearest diplomatic or consular representative of Austria at least four weeks before they travel to Austria. Since Austria is a Schengen State, persons requiring a visa will have to apply for a Schengen visa. In States where Austria has no diplomatic mission, visas can be obtained from the consular authority of a Schengen Partner State representing Austria in the country in question.

IAEA Contacts

Scientific Secretary:

Mr Hadid Subki

Division of Nuclear Power
Department of Nuclear Energy
International Atomic Energy Agency
Vienna International Centre
PO Box 100
1400 VIENNA
AUSTRIA

Tel.: +43 1 2600 22820

Email: M.Subki@iaea.org

Administrative Secretary:

Ms Ana Szentirmai

Division of Nuclear Power
Department of Nuclear Energy
International Atomic Energy Agency
Vienna International Centre
PO Box 100
1400 VIENNA
AUSTRIA

Tel.: +43 1 2600 22803

Fax: +43 1 26007

Email: A.Szentirmai@iaea.org

Subsequent correspondence on scientific matters should be sent to the Scientific Secretary and correspondence on other matters related to the event to the Administrative Secretary.
