

# Rebecca Weston

## Chief Operating Officer, Sellafield Ltd, UK

Ms Rebeca Weston is currently the Chief Operating Officer at Sellafield Limited, the largest subsidiary of the Nuclear Decommissioning Authority in the UK, which are responsible for the safe operation and clean-up of the Sellafield site, one of the most complex nuclear and industrial sites in the world. Ms Weston is responsible for overall programme delivery and for the performance of operations at Sellafield.

She has more than 20 years of experience in the nuclear industry across the lifecycle – from fuel manufacturing, reprocessing to decommissioning and waste management. She is a Fellow of the Institute of Physics and the Nuclear Institute in the UK and actively contributes in the national and international arena, for example, as a member of the IAEA Scientific Advisory Committee on Nuclear Energy.
