

## David Holcomb

Dr. Holcomb is a distinguished member of the technical staff and distinguished inventor at Oak Ridge National Laboratory (ORNL). Dr. Holcomb currently represents the United States and serves as a vice chair of the provisional system steering committee for the Generation IV International Forum on Molten Salt Reactors (MSRs), chairs the American Nuclear Society (ANS) working group developing a design safety standard for liquid-fueled MSRs (ANS 20.2), and provides technical oversight of US Department of Energy (DOE) university projects on MSRs. He previously served as the national area technical lead for MSRs and advanced reactor instrumentation and controls for the DOE Office of Nuclear Energy.
