

WEBINAR
on
Sustainability of EPR framework – Capacity Building Centres
4 March 2021, 9:00 - 12:00 UTC
(10:00 - 13:00 CET)

Organized by:
The IAEA's Incident and Emergency Centre

<p>Background</p>	<p>The GSR Part 7 states that <u>“The goal of emergency preparedness is to ensure that an adequate capability is in place within the operating organization and at local, regional and national levels and, where appropriate, at the international level, for an effective response in a nuclear or radiological emergency.”</u></p> <p><u>Capacity building</u> is crucial to maintain sustainable infrastructure in EPR. With this in mind, starting from 2013 the IAEA designated 7 IAEA Capacity Building Centres around the world.</p> <p>A Capacity Building Centre (CBC) is an organization or group of organizations with capabilities to implement education, training or information sharing activities. The objective of the establishment of CBCs is to recognize existing strengths of Member States, build on them to more efficiently and effectively channel and deliver EPR knowledge and best practices, and further enhance the expertise of CBCs towards a sustainable development of capabilities regionally and internationally.</p> <p>The aim of this webinar is to explain the concept of CBC and to encourage Member States to strengthen national, regional and international capacity to respond to nuclear and radiological emergencies.</p>
<p>Objectives</p>	<p>The objectives of the Webinar are:</p> <ul style="list-style-type: none"> • To present on CBC concept; • To outline the role of IAEA in establishing the CBC; • To discuss how to establish a CBC-EPR; • To present experiences of existing centres on operating the CBC.
<p>Target audience</p>	<p>The webinar is open to staff from relevant authorities with responsibilities in preparing for and responding to a nuclear or radiological emergency such as response organizations at various levels (local, regional, national) including regulators, operators, technical support organizations and first</p>
