

International Symposium on Isotope Hydrology:

**Sustainable Water Resources in a
Changing World**

3–7 July 2023

PROGRAMME

Organized by the
International Atomic Energy Agency (IAEA)

In cooperation with the
UNESCO Intergovernmental Hydrological Programme
World Meteorological Organization
International Association of Hydrogeologists

IAEA Headquarters Vienna, Austria

Programme Committee:

J. Miller, IAEA
L. Araguás Araguás, IAEA
D.L. Belachew, IAEA
L. Cobia, IAEA
A. Harjung, IAEA
O. Kracht, IAEA
T. Matsumoto, IAEA
L. Ortega, IAEA
U. Saravana Kumar, IAEA
S. Terzer-Wassmuth, IAEA
M. Vital, IAEA
Y. Vystavna, IAEA

IAEA Secretariat:

Scientific Secretary:	J. Miller, NAPC
Event Organizer:	N. Herter, MTCD
Exhibition Coordination:	E. Paniagua-Miranda, MTCD
Administrative Support:	L. Chavanne D. Schwingenschloegl J. Williams M. Yaney

Location of the Event:

International Atomic Energy Agency
Vienna International Centre (VIC)
Building C, BR C

Wagramer Strasse 5
A-1400 Vienna, Austria
Tel.: (+43 1) 2600 21315

Working Language:	English
--------------------------	---------

Resolutions:	No resolutions may be submitted for consideration on any subject; no votes will be taken.
---------------------	---

IAEA Mobile Conference Application

Participants are encouraged to download the “IAEA Conference and Meetings” App available on Google Play and the iTunes Store.

Android

iPhone

The functions and features of the App for smartphones and tablets will be used for various purposes during the event:

View an up-to-date programme

Check floor map of the sessions and exhibitors

Read abstracts and full-papers of speakers

Participate in voting during sessions

Raise questions to speakers during session

Send message to other participants

Receive announcements via push-notification

If you have questions or require assistance on the App, please contact the Registration Desk.

TIMETABLE

Monday, 3 July 2023

Time	Session No.	Session Title / Break	Venue
10:00–12:00		Registration	Gate 1
12:00–14:00		Opening Session	BR C
14:00–14:30		<i>Coffee/Tea Break</i>	
14:30–16:00	1	Isotopes in Hydrosphere-Atmosphere Interactions I	
16:00–16:30		<i>Coffee/Tea Break</i>	
16:30–18:00	2	Application of Isotope Age Tracers to Evaluate Water Residence Time	
18:00–20:00		Workshop 1: Conceptual Model Development for Isotope Hydrology and Water Resource Management	C0739
		Workshop 2: Nitrate Isotopes as Tracers of N-pollution and Cycling in Aquatic Systems	G-1, IHL

Tuesday, 4 July 2023

Time	Session No.	Session Title / Break	Venue
08:45–10:30	3	Isotopes in Water Quality Studies I	BR C
10:30–11:00		<i>Coffee/Tea Break</i>	
11:00–12:45	4	Revisiting the Role of Tritium as a Tracer of Hydrological Processes	
12:45–14:00		<i>Lunch Break</i>	
14:00–16:00	5	Advances in Noble Gas Applications for Groundwater Dating	
16:00–16:30		<i>Coffee/Tea Break</i>	
16:30–17:45	6	Developments in Isotope Analytical Techniques	
18:00–20:00		<i>Welcome Reception & GloWAL Presentation</i>	<i>Rotunda</i>

Wednesday, 5 July 2023

Time	Session No.	Session Title / Break	Venue
08:45–10:30	7	Isotopes in Water Quality Studies II	BR C
10:30–11:00		<i>Coffee/Tea Break</i>	
11:00–12:45	8	Isotopes in Groundwater Hydrology	
12:45–14:00		<i>Lunch Break</i>	
14:00–16:00	9	Integrating Isotope Techniques and Advanced Modelling Approaches	
16:00–16:30		<i>Coffee/Tea Break</i>	<i>Rotunda</i>

Time	Session No.	Session Title / Break	Venue
16:30–18:00		Poster Session I	Rotunda
18:00–20:00		Workshop 3: Innovative Devices for Gas Measurement Applications in Isotope Hydrology	G-1, IHL
		Workshop 4: Isotope-Enabled Modelling with JAMS/J2000iso, Demo for IAEA Training Workshop	C0739

Thursday, 6 July 2023

Time	Session No.	Session Title / Break	Venue
08:45–10:30	10	Understanding Surface Water – Groundwater Interaction Using Isotope Tracers	BR C
10:30–11:00		<i>Coffee/Tea Break</i>	
11:00–12:45	11	Isotopes in Hydrosphere-Atmosphere Interactions II	
12:45–14:00		<i>Lunch Break</i>	
14:00–16:00	12	Applications of Isotopes in Climate Change Studies	
16:00–16:30		<i>Coffee/Tea Break</i>	Rotunda
16:30–18:00		Poster Session II	Rotunda
18:00–20:00		Workshop 5: New Developments in Tritium (^3H) Analysis by Electrolytic Enrichment and Liquid Scintillation Counting (LSC)	G-1, IHL
		Workshop 6: Introducing a Comprehensive Modular Laboratory Information Management System for Isotope Analyses (IsoWorks)	C0739

Friday, 7 July 2023

Time	Session No.	Session Title / Break	Venue
08:45–10:30	13	Role of Isotope Hydrology in Water Resources Management	BR C
10:30–11:00		<i>Coffee/Tea Break</i>	
11:00–13:15		Symposium Discussion, Outcomes & Closing Session	

MONDAY, 3 JULY 2023

12:00–14:00 OPENING SESSION

BR-C

Time	Name	Designating Member State/Organization	Title of Presentation
12:00–12:30	R.M. Grossi	IAEA	Welcome and Opening Statement by the Director General
	H. Liu	IAEA	Opening Remarks by the Deputy Director General, Department of Technical Cooperation
	M. Denecke	IAEA	Opening Remarks by the Director, Division of Physical and Chemical Sciences, Department of Nuclear Sciences and Applications
	J. Miller	IAEA	Administrative Remarks by the Symposium Scientific Secretary
12:30–13:00	J. Cullmann	World Meteorological Organization (WMO)	<i>Keynote:</i> Water Resources in a Changing World: Perspectives from UN Water
13:00–13:30	C. Stumpp	Germany	<i>Keynote:</i> Securing Water Resources for the Future – Opportunities and Challenges in the Use of Isotopes for Sustainable Water Management
13:30–14:00	Y. Wada	Saudi Arabia	<i>Keynote:</i> Opportunities and Constraints for Improved Water Resources Management Using Different Lenses and Scales
14:00–14:30	<i>Coffee/Tea Break</i>		

MONDAY, 3 JULY 2023

14:30–16:00 **Session 1:**
Isotopes in Hydrosphere-Atmosphere
Interactions I

BR-C

Chairpersons: **C. Hughes, Australia**
 L. Araguás Araguás, IAEA

Time	Paper No.	Name	Designating Member State/Organization	Title of Presentation
14:30–15:00	380	A. Cauquoin	Japan	<i>Keynote:</i> Implementation of Tritium in the Atmospheric General Circulation Model (AGCM) MIROC5-Iso to Investigate the Dynamics of the Hydrological Cycle
15:00–15:15	367	R. Sánchez-Murillo	USA	Isotope Network of Tropical Tempestology (STORM): The Genesis and Development of Collaborative Research Effort across the Intra-America Seas and the Eastern Pacific Ocean
15:15–15:30	489	D. Wang	China	What Controls the 3D Distribution of Atmospheric Vapor Isotopes in East Asia
15:30–15:45	533	H. Bong	Japan	Process-based Quantification of Uncertainty in Water Isotope Models
15:45–16:00	482	S. Chakraborty	India	Association of Precipitation Isotopes and the Tropospheric Heating Over the Indian Monsoon Domain
<i>16:00–16:30</i>		<i>Coffee/Tea Break</i>		

TUESDAY, 4 JULY 2023

08:45–10:30 **Session 3:**
Isotopes in Water Quality Studies I

BR-C

Chairpersons: **F. Huneau, France**
 Y. Vystavna, IAEA

Time	Paper No.	Name	Designating Member State/Organization	Title of Presentation
08:45–09:15	619	V. Re	Italy	<i>Keynote:</i> Fingerprinting Human Impact on Groundwater Resources: How to Integrate Isotope Hydrology and Socio-hydrogeology
09:15–09:30	500	M. Caschetto	Italy	Groundwater Ages Distribution Along an Alluvial Basin Aquifer: How Age Estimates can Guide Nitrate Mitigation in Groundwater?
09:30–09:45	611	S. Kebede Gurmessa	South Africa	Tracing Urban Pipe Water Residence Time and Movement Using Environmental Isotopes ($\delta^{18}\text{O}$ - $\delta^2\text{H}$, ^{222}Rn) and Electrical Conductivity – A New Frontier for Urban Water Supply Risk Mapping
09:45–10:00	353	D. Gooddy	United Kingdom	Phosphate Oxygen Isotopes are Pivotal in Multi-isotope Advances for Diagnosing Nutrient Cycling and Sources
10:00–10:15	498	I. Vadillo	Spain	Use of Environmental Isotopes ($\delta^{18}\text{O}_{\text{H}_2\text{O}}$, $\delta^2\text{H}_{\text{H}_2\text{O}}$ and $\delta^{13}\text{C}_{\text{DIC}}$) to Understand the Fate of Emerging Organic Contaminants and Other Organic Contaminants in Water Resources (Case Studies from Southern Spain)
10:15–10:30	586	B. Mayer	Canada	Isotopic Tracing of Sources and Fate of Nitrate, Methane and Ethane in Groundwater in Alberta, Canada
10:30–11:00		<i>Coffee/Tea Break</i>		

TUESDAY, 4 JULY 2023

11:00–12:45 **Session 4:**
Revisiting the Role of Tritium as a Tracer
of Hydrological Processes

BR-C

Chairpersons: **A. Lamb, United Kingdom**
 L. Copia, IAEA

Time	Paper No.	Name	Designating Member State/Organization	Title of Presentation
11:00–11:30	625	I. Cartwright	Australia	<i>Keynote:</i> Determining Transit Times in Dynamic Environments using Tritium
11:30–11:45	493	U.G. Morgenstern	New Zealand	Tritium as Tracer in a Post-Bomb Hydrologic Cycle – Complex Groundwater Age Distributions and Dating of Stream and River Water
11:45–12:00	477	H.P. Broers	Netherlands	Tritium Based Travel Time Distributions and Nitrate Forecasts in Dutch Chalk Springs
12:00–12:15	561	M. Gusyev	Japan	Using Environmental Isotopes to Understand Hydrological Processes in the Naymant Valley and Balgas Red Lake Depressions of Mongolia Gobi Region
12:15–12:30	524	L. Palcsu	Hungary	Preliminary Results of the Tritium Profile at Glacier Colle Gnifetti, Swiss-Italian Alps: Link to the Solar Cycle
12:30–12:45		J. Miller S. Terzer-Wassmuth	IAEA	Upgrading of the IAEA's Water Isotope System for Electronic Retrieval (WISER)
12:45–14:00		<i>Lunch Break</i>		

TUESDAY, 4 JULY 2023

14:00–16:00 **Session 5:**
Advances in Noble Gas Applications for
Groundwater Dating

BR-C

Chairpersons: **D.K. Solomon, USA**
 I. Kuhn, IAEA

Time	Paper No.	Name	Designating Member State/Organization	Title of Presentation
14:00–14:30	576	D. Pinti	Canada	<i>Keynote:</i> Multi-isotopic Approach for Dating Groundwater in the Laurentides, Southern Quebec, Canada
14:30–14:45	562	T. Chambers	Australia	Radiokrypton Measurements at the Australian Atom Trap Trace Analysis Facility
14:45–15:00	588	A. Seltzer	USA	High-precision dissolved noble gas isotopes: A window into physical processes at the water table
15:00–15:15	465	C. Wilske	Australia	Noble Gas Analyses of Fluid Inclusions in the Deep Hiltaba Suite Granite (South Australia) Point towards Fluid Circulation on the Billion Year Time Scale
15:15–15:30	391	D.E. Martínez	Argentina	Dating Old Groundwater with Kr-81 and C-14 in Deep Aquifers in Argentina as a Contribution to Constrain the He-4 Application for Determining Residence Time
15:30–15:45	430	F. Meienburg	Australia	Update on Argon Trap Trace Analysis – Value of Ar-39 Measurements in Various Environmental Systems
15:45–16:00				Roundtable Discussion
16:00–16:30				<i>Coffee/Tea Break</i>

TUESDAY, 4 JULY 2023

16:30–17:45 **Session 6:**
Developments in Isotope Analytical
Techniques

BR-C

Chairpersons: **L. Copia, IAEA**
 M. Vital, IAEA

Time	Paper No.	Name	Designating Member State/Organization	Title of Presentation
16:30–17:00	409	A. Lamb	United Kingdom	<i>Keynote:</i> Advances in Sulfur Isotope Measurements – Progress and Applications for Hydrological Science
17:00–17:15	374	N. Williams	United Kingdom	Unravelling Isotopologue Ratios with the New Orbitrap Exploris™ Isotope Solutions
17:15–17:30	575	O. Schilling	Switzerland	The Potential of Combining Isotope Analyses with Online Noble Gas and Microbial Tracer Methods for Hydrogeological Investigations
17:30–17:45	481	D.K. Solomon	USA	Cosmogenic Production of ³ He during Ultra-Low-Level Tritium Measurements by ³ He Ingrowth

18:00–20:00 **Welcome Reception & GloWAL Presentation** **Rotunda**

WEDNESDAY, 5 JULY 2023

08:45–10:30 **Session 7:**
Isotopes in Water Quality Studies II

BR-C

Chairpersons: **S. Kebede Gurmessa, South Africa**
Y. Vystavna, IAEA

Time	Paper No.	Name	Designating Member State/Organization	Title of Presentation
08:45–09:15	628	F. Huneau	France	<i>Keynote:</i> Combining Multi-isotope Tracing with Organic Compounds to Improve Pollution-sources Tracking of Groundwater Resources in Africa and the Mediterranean, Impact on Aquifer Management Strategies
09:15–09:30	337	D. Pant	India	Impact of High Agricultural Activity on the Groundwater Quality of Southwest Punjab, India
09:30–09:45	442	M. Manzano	Spain	Tracking Contaminant Sources in Groundwater Discharging to the Mar Menor Coastal Lagoon (SE Spain)
09:45–10:00	508	D. Jogee	Mauritius	Major Ion Chemistry and Isotope Hydrology of Surface Waters in the Grand River North West Catchment, Mauritius
10:00–10:15	559	L. Bouchaou	Morocco	Understanding Groundwater Salinization and Recharge Processes in the Essaouira Coastal Aquifer, Morocco
10:15–10:30	375	J. Ikonen	Finland	Behavior of Li, S and Sr Isotopes in the Subterranean Estuary and Seafloor Pockmarks of the Hanko Submarine Groundwater Discharge Site in Finland, Northern Baltic Sea
10:30–11:00	<i>Coffee/Tea Break</i>			

WEDNESDAY, 5 JULY 2023

11:00–12:45 **Session 8:**
Isotopes in Groundwater Hydrology

BR-C

Chairpersons: **G.P. Flores Avilés, Bolivia**
 U. Saravana Kumar, IAEA

Time	Paper No.	Name	Designating Member State/Organization	Title of Presentation
11:00–11:30	327	G.P. Flores Avilés	Bolivia	<i>Keynote:</i> Contribution of Isotope Hydrology to the Knowledge of Transboundary Aquifer Systems in the Plurinational State of Bolivia
11:30–11:45	361	M.A.A. Mohamd	Sudan	Evaluation of Recharge and Groundwater Resources in the Area Eastern of Bara Basin, Sudan
11:45–12:00	545	M. Raiber	Australia	Using Environmental Tracers (¹⁴ C, ³⁶ Cl and ⁸¹ Kr) to Assess Recharge and Connectivity Processes in the Great Artesian Basin, Australia
12:00–12:15	363	A. García-Moya	Cuba	Assessing Water Salinization in a Coastal Aquifer of Cuba, an Approach Based on Hydrochemical and Isotopic Characterization of its Waters
12:15–12:30	372	D. Al-Sha'rat	Jordan	Isotope Applications – Artificial Groundwater Recharge from the Dams
12:30–12:45		Roundtable Discussion		
12:45–14:00		<i>Lunch Break</i>		

WEDNESDAY, 5 JULY 2023

14:00–16:00 **Session 9:
Integrating Isotope Techniques and
Advanced Modelling Approaches**

BR-C and Rotunda

Chairpersons: **J. Podgorski, Switzerland
A. Harjung, IAEA**

Time	Paper No.	Name	Designating Member State/Organization	Title of Presentation
14:00–14:30	620	I. Ouedraogo	Burkina Faso	<i>Keynote:</i> Exploring Machine Learning Techniques to Identify Nitrate Sources in Groundwater in National Mouhoun Basin in Burkina Faso: The Case of the Kou Watershed
14:30–14:45	579	J. Podgorski	Switzerland	Aquifer Vulnerability Assessment Using Tritium and Machine Learning
14:45–15:00	504	I. Kuhn	Brazil	Groundwater Level Time-Series and its Correlation to Stable Isotopes at Southern Outcrop Area of Guarani Aquifer System
15:00–15:15	530	M. Tanoue	Japan	Global Cloud-system-resolving Model Equipped with Stable Water Isotopes (NICAM-WISO)
15:15–15:30	595	G.J. Bowen	USA	Isotopic Heterogeneity in U.S. Urban Supply Systems Reflects Climatic, Environmental, and Sociodemographic Factors
15:30–15:45	609	A. Watson	South Africa	Developing a Water and Isotope Flux Module for the JAMS/J2000iso Model
15:45–16:00	349	E. Adar	Israel	Assessing the Spatial Distribution of an Aquifer's Transmissivity and Storativity from Isotopes and Hydrochemistry Using a Mixing Cells Modeling Approach
16:00–16:30		<i>Coffee/Tea Break</i>		<i>Rotunda</i>

16:30–18:00 **Poster Session I**

Rotunda

18:00–20:00 **Workshop 3:
Innovative Devices for Gas
Measurement Applications in
Isotope Hydrology**

G-1, IHL
(Meeting Point:
IAEA stand, Rotunda)

Time	Paper No.	Name	Designating Member State/Organization	Title of Presentation
		Workshop 4: Isotope-Enabled Modelling with JAMS/J2000iso, Demo for IAEA Training Workshop		C0739

THURSDAY, 6 JULY 2023

08:45–10:30 **Session 10:**
Understanding Surface Water –
Groundwater Interaction Using Isotope
Tracers

BR-C

Chairpersons: **V. Re, Italy**
 U. Saravana Kumar, IAEA

Time	Paper No.	Name	Designating Member State/Organization	Title of Presentation
08:45–09:15	616	L. Ortega	IAEA	<i>Keynote:</i> Isotopes Key to Unravelling Groundwater-Surface Water Interactions in the Esteros del Iberá Wetland Area, Argentina
09:15–09:30	571	C.N. Wacuka	Kenya	Evaluation of Surface-Groundwater Interaction using Stable Isotopes in Kinale, Loromo and Kikuyu Areas of Kiambu County, Kenya
09:30–09:45	419	P.E. Lartsey	Ghana	Application of Isotope Techniques to Groundwater Resources Management in the North-Western Part of the Volta-River Basin of Ghana
09:45–10:00	505	M. Beyer	Germany	Vegetation Controls Spatial Patterns of Soil Water Isotopes in a Tropical Dry Forest and UAV's Can Help to Predict Them
10:00–10:15	416	O. Bogdevici	Republic of Moldova	Source, Age and Recharge Patterns of Groundwater in SE Europe
10:15–10:30		Roundtable Discussion		
10:30–11:00		<i>Coffee/Tea Break</i>		

THURSDAY, 6 JULY 2023

11:00–12:45 **Session 11:**
Isotopes in Hydrosphere-Atmosphere
Interactions II

BR-C

Chairpersons: **R. Sánchez-Murillo, USA**
 M. Vital, IAEA

Time	Paper No.	Name	Designating Member State/Organization	Title of Presentation
11:00–11:30	395	A.M. Durán-Quesada	Costa Rica	<i>Keynote: Stable Isotope Composition of Rainfall: Insights of Extreme Events</i>
11:30–11:45	510	C. Gerber	Australia	Up-cycling Isotope Data Sets to Improve and Verify Multiple Isoscapes in Australia
11:45–12:00	583	J.D. Van Rooyen	South Africa	Stable and Radiogenic Isotopes in Southern Mozambique: A Window into Groundwater Mixing and Vulnerability
12:00–12:15	332	M. Ramos	Brazil	Water Stable Isotopes Tracking Flowpaths in the Headwaters of São Francisco River, Minas Gerais, Brazil
12:15–12:30	573	C. Müller	Germany	Drought Impacts on the Nitrogen Dynamics in a Mesoscale Watershed in Central Europe – Insights from Stable Isotope Investigations
12:30–12:45	457	C. Voigt	Spain	Disentangling Hydrological and Climatological Controls of Ephemeral Lakes in Southern Spain Using Triple Oxygen Isotopes
12:45–14:00		<i>Lunch Break</i>		

THURSDAY, 6 JULY 2023

14:00–16:00 **Session 12:**
Applications of Isotopes in Climate
Change Studies

BR-C and Rotunda

Chairpersons: **TBC**
O. Kracht, IAEA

Time	Paper No.	Name	Designating Member State/Organization	Title of Presentation
14:00–14:30	631	T. Vennemann	Switzerland	<i>Keynote:</i> Whole wood H- and O-isotope Compositions of Trees Proximal to Rivers Draining Alpine Catchments Provide Evidence of Increased Glacial Melt Water Proportions due to Global Climate Change
14:30–14:45	343	J.A. Corcho Alvarado	Switzerland	Anthropogenic Radionuclides to Study the Age of the Ice in Two Swiss Glaciers
14:45–15:00	502	C. Ditlevsen	Finland	Understanding the Role of Snowmelt Water in a Changing Climate with Isotope Hydrology
15:00–15:15	564	I. Fórizs	Hungary	Application of Stable Water Isotopes on the Kis-Balaton Water Protection System, Hungary
15:15–15:30	439	S.C. Faye	Senegal	Groundwater Recharge and the Intensification of Rainfall under Climate Change: Evidence from an Urban Groundwater Observatory in Dakar, Senegal
15:30–15:45	444	T. Marković	Croatia	Isotope Fingerprint Change in Precipitation and Groundwater due to Climate Change
10:15–10:30		Roundtable Discussion		
16:00–16:30		<i>Coffee/Tea Break</i>		<i>Rotunda</i>
16:30–18:00		Poster Session II		Rotunda
18:00–20:00		Workshop 5: New Developments on in Tritium (³H) Analysis by Electrolytic Enrichment and Liquid Scintillation Counting (LSC)		G-1, IHL (Meeting Point: IAEA booth, Rotunda)
		Workshop 6: Introducing a Comprehensive Modular Laboratory Information Management System for Isotope Analyses (IsoWorks)		C0739

FRIDAY, 7 JULY 2023

08:45–10:30 **Session 13:**
Role of Isotope Hydrology in Water
Resources Management

BR-C

Chairpersons: **HE J.F. Facetti, Paraguay**
 J. Miller, IAEA

Time	Paper No.	Name	Designating Member State/Organization	Title of Presentation
08:45–09:15	629	T. Stadnyk	Canada	<i>Keynote: From Threats to Opportunity: Towards Science-informed Policy for Addressing Earth's Grand Challenges</i>
09:15–09:30	371	Y. Llerena Padrón	Cuba	Cuban Experience in the Use of Isotope Hydrology as a Scientific-Technical Tool for the Evaluation of the Water Resources Sustainability
09:30–09:45	463	Z. Rafiei-Sarmazdeh	Iran, Islamic Republic of	Essential of Isotope Hydrology Policy-making in Iran's Water Resource Management Issue
09:45–10:00	592	R. Kirchheim	Brazil	New Findings using Noble Gases Isotopes in the Guarani Aquifer System in South America
10:00–10:15	551	C. Hughes	Australia	Precipitation and Groundwater d2H and d18O Isoscapes to Support Water Management in NSW, Australia
10:15–10:30		Roundtable Discussion		
10:30–11:00		<i>Coffee/Tea Break</i>		

FRIDAY, 7 JULY 2023

11:00–13:15 SYMPOSIUM DISCUSSION OUTCOMES & CLOSING SESSION

BR-C

Time	Name	Designating Member State/Organization	Title of Presentation
11:00–11:30	N. Raasakka	United Nations Environment Programme (UNEP)	<i>Keynote:</i> The Importance of Water Quality for National Water Management
11:30–12:00	J. Miller	IAEA	<i>Keynote:</i> The Isotope Hydrology Section at the IAEA: What Does the Future Hold?
12:00–12:30		Discussion	
12:30–13:00	J. Miller	IAEA	Symposium Outcomes by the Scientific Secretary
13:00–13:15	S. Abdulrazak	IAEA	Closing Remarks by the Director, Division for Africa, Department of Technical Cooperation
	C. Horak	IAEA	Closing Remarks by the acting Director, Division of Physical and Chemical Sciences, Department of Nuclear Sciences and Applications

Poster

WEDNESDAY, 5 JULY 2023

16:30–18:00 POSTER SESSION I:

Rotunda

Paper No.	Presenting Author	Designating Member State/Organization	Title of Paper
314	V. Zupanc	Slovenia	Evaluation of the Sources and Transport Pathway of Agro-Contaminants in Shallow Aquifers
316	A. Ioannidou	Greece	Seasonal Variations of Tritium and Stable Isotopes in Spring Waters of Simonos Petra Monastery, Mount Athos
322	A. Koroša	Slovenia	Identification of Presence and Sources of Emerging Contaminants in Urban Aquifers
323	M. Zabala	Argentina	Isotopic Variability of Rainfall in a Large Sub-Humid Continental Plain
324	M. Souta	Zimbabwe	Distribution of Isotope Composition in Harare and Bulawayo Precipitation
325	I. Hatvani	Hungary	Tritium Isoscape of the Adriatic–Pannonian Precipitation (1976 – 2017) AP3H_V1 Database
326	I. Hatvani	Hungary	Predicting the Spatial Distribution of Stable Isotopes in Precipitation Using Machine Learning Approaches
328	V. Santos	Brazil	Changes in Isotopic Composition of Mixed Rainfall Events in Southern Brazil
330	M. Yongprawat	Thailand	Temporal and Spatial Variations of Tritium Background Levels in Thailand
333	C. Quaggio	Brazil	Tritium Ages in Groundwater as a Tool to Long-Term Water Resources Management
336	F. Raibi	Morocco	Development and Application of Isotope Techniques for Efficient Water Resources Management in the Kettara Abandoned Mine (Morocco)
338	N. Mujahid	Pakistan	Study of Groundwater Pollution and its Sources Using Isotope/Chemical Techniques in District Kasur, Punjab, Pakistan
342	M.D. Moniruzzaman	Bangladesh	Isotopic and Hydrogeochemical Evolution of Groundwater in Southcentral Part of Bangladesh:

Paper No.	Presenting Author	Designating Member State/Organization	Title of Paper
			Implications for Vulnerability of Aquifers
344	O. Quiroz	Argentina	Stable Isotope Data and Origin of Daily Rainfall During 2020 – 2022 at the Middle Latitude in the Southwestern Atlantic Region
350	J. Klistinec	Slovakia	Tracking Source of the Nitrogen Pollution in the Groundwater of Slovakia and its Isotopic Composition: Monitoring, Challenges and Possible Solutions
356	M. Vital	IAEA	Factors Affecting the Radon (^{222}Rn) Emanation from Aquifer Rock Materials: Implications for Radiological and Groundwater Tracer Studies
357	M. Qurtobi	Morocco	Use of Environmental Isotopes to Assess Coastal Groundwater Salinization of Akermoud Coastal Plain in Central of Morocco
358	R. Oyarzun	Chile	Isotopic-Geochemical Study of Hydrological Dynamics in Andean Basins, North-Central Chile
359	M. Bellarbi	Morocco	Assessment of Groundwater Quality in Urban and Peri-Urban Fez (Morocco)
362	A. García-Moya	Cuba	Stable Isotopes Signature of Dissolved Nitrate in Rainfall Events in the Caribbean Coast of Cienfuegos, Cuba to Address Atmospheric Nitrogen Sources and Transformation Processes
373	A. Babre	Latvia	Stable Isotope Perspective of Terminal Lake Water Balance in Light of Climate Change in Latvia
377	R. Sánchez-Murillo	USA	Convective Storms, Urban Water Sources, and Runoff Generation in a Highly Altered Urban Center of North-Central Texas, USA
381	D. Das	India	Stable Isotope Assessment of Elevated Groundwater Uranium Contamination Aquifers System in Alluvium Plan Punjab, India
383	S. Bhattacharaya	India	Vapor Isotope Variation in the Taiwan Region Due to Typhoons in 2016
384	K.A. Kpegli	Benin	Level and Sources of Nitrate Pollution Across the Kandi Basin in

Paper No.	Presenting Author	Designating Member State/Organization	Title of Paper
			Benin (West Africa): Insights from Hydrochemistry and Isotopes

PARTICIPATION IN IAEA SCIENTIFIC CONFERENCES

Governments of Member States and those organizations whose activities are relevant to the conference subject matter are invited to designate participants. In addition, the IAEA itself may invite a limited number of scientists as invited speakers. Only participants designated or invited in this way are entitled to present papers and take part in the discussions.

Scientists interested in participating in any of the IAEA conferences should request information from the Government authorities of their own countries, in most cases the Ministry of Foreign Affairs or national atomic energy authority.

PUBLICATIONS

Proceedings

The proceedings of the conference containing all presentations and posters delivered at the conference, as well as the findings and recommendations, will be published by the IAEA as soon as possible after the conference.

Orders

No registration fee is charged to participants but they are encouraged to order for themselves or on behalf of their supporting organization at least one copy of the proceedings. These can be obtained at a special price representing half the estimated sales price provided that they are ordered and paid for during the conference at the Conference Desk.

Other IAEA Publications

All IAEA publications may be ordered directly from the Sales and Promotion Unit, International Atomic Energy Agency, P.O. Box 100, A-1400 Vienna, Austria.

Fax: (+43 1) 2600-29302

Email: sales.publications@iaea.org

Internet: <http://www.iaea.org/books>

FORTHCOMING SCIENTIFIC CONFERENCES SCHEDULED BY THE IAEA

2023

Second International Conference on Climate Change and the Role of Nuclear Power (CN-315)
9-13 October, Vienna, Austria

29th IAEA Fusion Energy Conference (CN-316)
16-21 October, London, United Kingdom

International Conference on Waste and Environmental Safety: Integrated Approach to Strengthening Sustainable Development (CN-318)
6-10 November, Vienna, Austria

International Symposium on the Deployment of Floating Nuclear Power Plants (CN-330)
14-15 November 2023, Vienna, Austria

International Conference on Research Reactors: Achievements, Experience and the Way to a Sustainable Future (CN-319)
27-30 November, Dead Sea, Jordan

2024

International Conference on Enhancing Operational Safety of Nuclear Power Plants (CN-284)
15 – 19 April 2024, Beijing, China

International Conference on Nuclear Security ICONS 2024 (CN-321)
20 – 24 May 2024, Vienna, Austria

International Symposium on Food Safety and Quality Assurance (CN-322)
27 – 31 May 2024, Vienna, Austria

International Conference on the Management of Spent Fuel from Nuclear Power Reactors (CN-323)
10 – 14 June 2024, Vienna, Austria

International Conference on Nuclear Knowledge Management and Human Resources Development: Challenges and Opportunities (CN-324)
2 – 5 July 2024, TBC

International Conference on Hybrid Imaging (IPET 2024) (CN-326)
7 – 11 October 2024, Vienna, Austria

International Conference on Small Modular Reactors and their Applications (CN-327)
28 – 31 October 2024, Vienna, Austria

Ministerial Conference on Nuclear Science and Technology for Development (CN-328)
12 – 14 November 2024, Vienna, Austria

International Conference on Challenges Faced by Technical and Scientific Support Organizations (TSO) in Enhancing Nuclear Safety and Security: Enhancing science and adaptability in a changing world and creating perspective for a young generation (CN-329)
2 – 6 December 2024, Vienna, Austria

For information on forthcoming scientific meetings, please consult the IAEA web site:
<http://www.iaea.org/events>
