

Session VI: Programme Roles and Responsibilities

Dazhu Yang, Director,
Division for Africa
Department of Technical Cooperation

Ayhan Evrensel, Communication Adviser,
Department of Nuclear Energy

IAEA

International Atomic Energy Agency

Session objective

- Roles of various stakeholders in TC programme
- Roles of:
 - Permanent Missions
 - National Liaison Officers (NLO) and National Counterparts
 - Secretariat:
 - TC Department – Programme Management Officer (PMO)
 - Technical Departments – Technical Officers (TO)

TC programme stakeholders

TC programme stakeholders

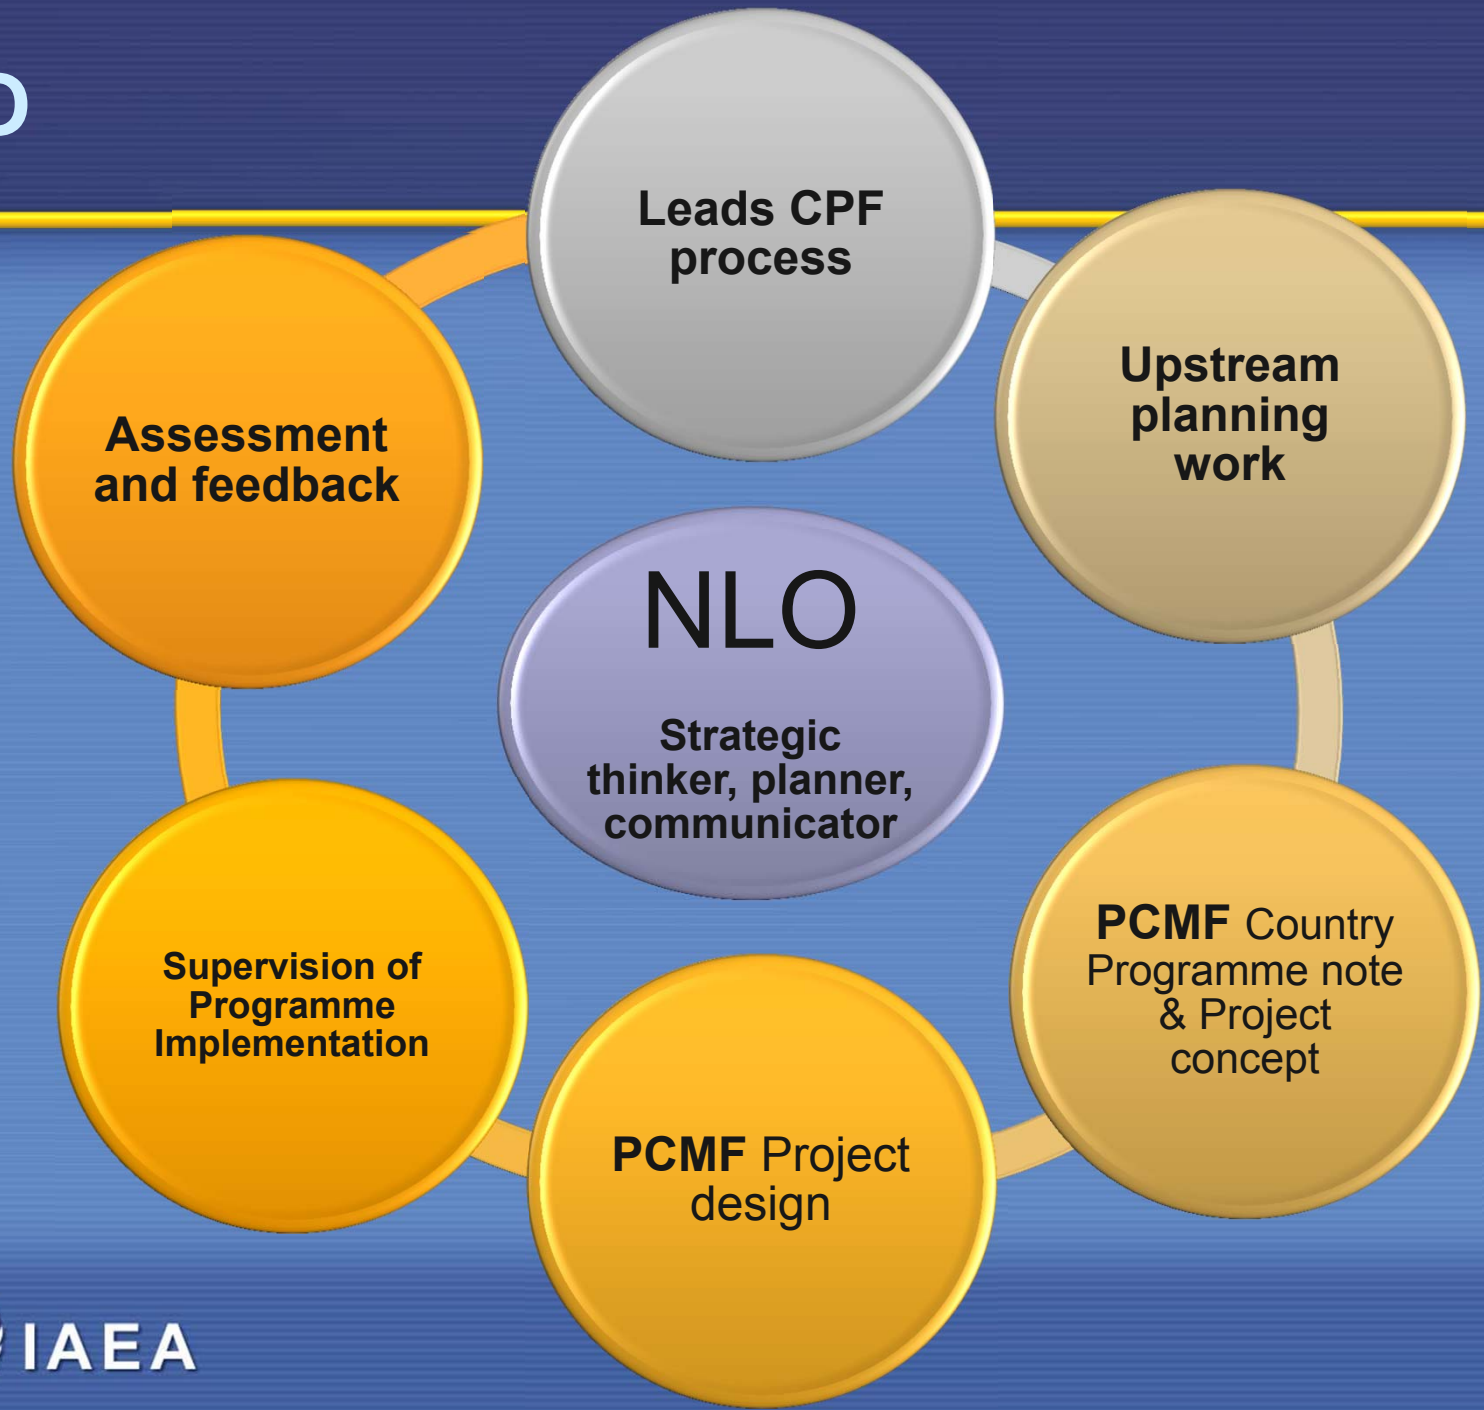

Permanent Missions

- Strategic partners in TC programme
- Provide guidance to TC programme through GC resolutions, Board Decisions
- Facilitate dialogue with key players and counterparts at national level

National Liaison Officer (NLO)

- Senior national official designated by government
- Primary contact and interface between IAEA & Member State on matters relating to IAEA, in particular TC programme
- Advises government on IAEA TC matters
- Coordinates and supervises overall TC country programme management at national level, leads CPF process
- Coordinates within the country & with Permanent Missions
- Liaison with UN and other partners
- Strategic thinker, planner, communicator

NLO

Project counterpart

- Leadership in achieving project results (organizes national support-inputs, assures long term sustainability)
- Formulates Project Concept based on CPF and upstream planning work
- Develops Project Document within the PCMF
- Interacts with project team during project formulation, implementation and reporting.
- Responsible for overall management and direction of a TC project in the country, involving all stakeholders

TC Department: core functions

- **Focal point for TC policy dialogue with Member States**
 - strategic planning, upstream programming, resource mobilization, partnership building, regional cooperation and compliance with IAEA policies and procedures
- **Advises and supports Member States on best ways to address priorities through TC Programme, by identifying**
 - specific capacities and gaps in Member States
 - specific programmatic responses tailored to diverse needs and capacities
- **Manages TC Programme in partnership with Member States and relevant departments**
 - delivers integrated programmes matching to identified gaps and capacities
 - accountable for performance of TC Programme

Programme Management Officer (PMO)

- **Staff member from TC Department's regional Divisions**
- **Responsible for managing TC programme in one or more countries of that region.**
- **May manage regional and/or interregional projects**

Core functions of the PMO

- IAEA interlocutor & interface with NLO, project counterparts
- Advises on CPF process, coordinates IAEA input & feedback
- Fosters networks and partnerships with national institutions and UN development agencies
- Assists in formulating country TC programmes, based on Member State's plans
- Manages delivery of IAEA inputs under approved TC projects, based on agreed project work plans; ensures that TCF resources produce expected results

Technical Departments

“...accelerate & enlarge the contribution of atomic energy to peace, health & prosperity...”

Nuclear Energy

**Nuclear Sciences
& Applications**

**Nuclear Safety
& Security**

**Office of
Legal Affairs**

Safeguards

technology**

Nuclear Safety & Security

Nuclear Installation Safety

Emergency Preparedness & Response

Global Nuclear Safety & Security Framework

Radiation, Transportation & Waste Safety

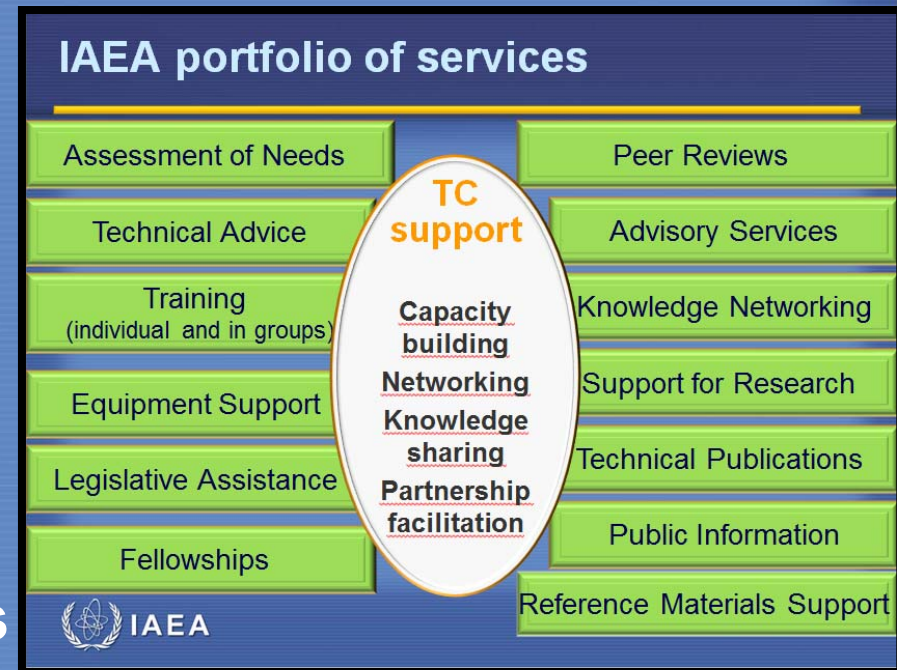

Global Nuclear Security

Nuclear Safety Standards & Security Guidelines

Technical Dept.s: Services & products

- Technical support to projects through TC programme
- Peer reviews
- Networks
- Databanks
- Summaries of experience, knowledge, best practices
- Training, distance learning
- Standards, guidelines
- Technical reference documents
- Research coordination

Office of Legal Affairs (OLA)

Technical Officer: Responsibilities

- Determines technical integrity
- Is actively involved

Technical Officer: Role

- Reviews concepts, designs, implementation
- Helps develop work plans
- Monitors progress
- Ensures implementation: interacts with project counterparts & MS, provides technical advice

Technical Officer: Role

- Expert missions, training courses
 - Defines terms of reference / prospectus
 - Identifies & prepares experts
 - Prepares material (e.g. training)
 - Helps select participants (for training)
 - Reviews & assists with technical reports
- Fellowships: identifies host institutions, develops training programmes, evaluates nominations
- Specifies equipment needed

Communication is key!

Permanent
Missions

NLO

PMO/TO
(Secretariat)

*Technical cooperation:
delivering results for
peace & development*
