

David Followill, Ph.D.

Imaging and Radiation Oncology Core (IROC) Houston QA Center, U.S.A.

David Followill is the Director and Principal Investigator of the IROC Houston QA Center located at the University of Texas MD Anderson Cancer Center. Dr. Followill received his Ph.D. in Biophysics from the University of Texas Health Science Center Graduate School of Biomedical Sciences and currently holds the rank of Professor at MD Anderson. His career has been devoted to the accurate, consistent and safe delivery of radiotherapy treatments to cancer patients enrolled in clinical trials. At IROC, he oversees and directs the operation of the largest QA center in the world monitoring services for 2,200 radiotherapy centers spanning 58 countries. His efforts have helped to assure clinical trial agencies that the trial outcome data is not obscured by uncertainty.
