General Conference

Fourth regular session

Agenda item 10
(GC(IV)/130)

GENERAL DEBATE AND REPORT OF THE BOARD OF GOVERNORS FOR 1959-60

Draft resolution submitted by Poland (GC(IV)/131)

Motion and procedural proposal submitted jointly by Canada, France,
Italy, the United Kingdom of Great Britain and Northern Ireland
and the United States of America

1. Motion: The General Conference notes that the matters raised in the preamble and operative paragraph 1 of the draft resolution in document GC(IV)/131 continue to be under active discussion in other more appropriate international forums and that it would be premature to consider undertaking the study envisaged in operative paragraph 2 of the draft resolution, and decides that it is not, in these circumstances, desirable to adopt any substantive resolution on these matters.
2. Procedural proposal under Rule 77 of the Rules of Procedure: That the General Conference decide that the motion contained in paragraph 1 above should be put to the vote before the draft resolution contained in document GC(IV)/131.
