APPOINTMENT OF THE DIRECTOR GENERAL OF THE AGENCY

The General Conference,

Considering:

- (a) That the post of Director General of the International Atomic Energy Agency is the key post for the successful functioning of this Agency,
- (b) That the developing countries have a special interest in the operation of the Agency and that there has not been sufficient consultation with them on this matter, and
- (c) That more extensive negotiations and consultations are necessary before an agreed candidate can be found for this post,

Requests the Board of Governors to reconsider the nomination of the Director General immediately and to place before the General Conference a nomination which is acceptable without opposition.
