Rule 86 of the Rules of Procedure^{1/} requires the General Committee to determine the number of elective places on the Board of Governors which must be filled by the General Conference so as to ensure compliance with the provisions of Article VI.A.3 of the Statute. The Committee accordingly notifies the Conference that it has determined that five Members must be elected to the Board during the present session. In this connection, the Committee invites attention to the last provision in the Article, which stipulates that

".... no member in the category [] of members elected to the Board by the General Conference [] in any one term of office shall be eligible for re-election in the same category for the following term of office."^{2/}

2. Rule 86 further requires the General Committee to specify the geographical areas in respect of which a Member or Members must be elected so as to ensure that after the end of the session the Board shall include three Members each elected by the Conference from the areas of Latin American and of Africa and the Middle East, and one Member from each of the remaining areas, except North America, specified in Rule 83. In compliance with this provision, the Committee hereby specifies that elections are required at the current session in respect of three geographical areas, as follows:

2 Members from Latin America,

1 Member from Africa and the Middle East, and

1 Member from South East
Asia and the Pacific
