Thirteenth regular session

Agenda item 19
(GC(XIII)/418)

FUND OF SPECIAL FISSIONABLE MATERIALS

Report of the Administrative and Legal Committee

Rapporteur: Mr. P. TAÇAR (Turkey)

1. At its fiftieth meeting on 26 September 1969 the Committee considered item 19 of the agenda - Fund of special fissionable materials. The Committee had before it a memorandum by the Board of Governors^{1/} and two notes^{2/} by the Director General containing replies received from France, the Union of Soviet Socialist Republics, the United Kingdom of Great Britain and Northern Ireland and the United States of America to inquiries he had made concerning the supply of enriched uranium through the Agency.
2. An exchange of views took place and the Committee took note of the contents of the three documents before it. In the course of the discussion a proposal was made that the Director General should be requested to transmit to the Secretary-General of the United Nations, for communication to the General Assembly, the Board's memorandum, the replies received from the major suppliers of special fissionable material and the records of the relevant proceedings of the Conference. The Committee unanimously agreed to recommend the Conference to adopt that proposal.
