Thirty-eighth regular session
Sub-item 14(b) of the provisional agenda
(GC(XXXVIII)/1)

NUCLEAR SAFETY, RADIOLOGICAL PROTECTION AND RADIOACTIVE WASTE MANAGEMENT

(b) MEASURES TO RESOLVE INTERNATIONAL RADIOACTIVE WASTE MANAGEMENT ISSUES

Modification

In Attachment 1, paragraph 3 (to which there is now a footnote) should read as follows:

3. The Secretariat circulated the latest draft of the Safety Fundamentals document "The Principles of Radioactive Waste Management" to Member States for comment in February, and the final draft is being reviewed by an "extended INWAC"^{*/} in September before submission to the Board of Governors for approval in December. The four Safety Standards documents due to be completed during Phase I (covering the subject areas "Planning", "Pre-disposal", "Near-surface disposal" and "Decommissioning") have been circulated to Member States for comment.

^{*/} INWAC (International Radioactive Waste Management Advisory Committee) is the Agency's advisory committee on radioactive waste management. The purpose of the "extended INWAC" is to ensure that, if the INWAC member from a particular country represents an operating organization, a regulator from that country also attends the meeting.
