Communication Received from the Government of the Federal Republic of Germany Concerning its Policies Regarding the Management of Plutonium

Statements on the Management of Plutonium and of High Enriched Uranium

1. The Director General has received a Note Verbale, dated 22 September 2003, from the Permanent Mission of the Federal Republic of Germany to the IAEA in the enclosures of which the Government of Germany, in keeping with its commitment under the Guidelines for the Management of Plutonium (contained in INFCIRC/549 of 16 March 1998), and in accordance with Annexes B and C of the Guidelines, has made available annual figures for holdings of civil unirradiated plutonium and the estimated amounts of plutonium contained in spent civil reactor fuel as of 31 December 2002.
2. The Government of the Federal Republic of Germany has also made available a statement of the estimated amounts of high enriched uranium (HEU) as of 31 December 2002.
3. In light of the request expressed by the Federal Republic of Germany in its Note Verbale of 1 December 1997 concerning its policies regarding the management of plutonium (INFCIRC/549 of 16 March 1998), the Note Verbale of 22 September 2003 and the enclosures thereto are attached for the information of all Member States.

PERMANENT MISSION OF THE FEDERAL REPUBLIC OF GERMANY
TO THE OFFICE OF THE UNITED NATIONS AND TO THE OTHER
INTERNATIONAL ORGANIZATIONS, VIENNA

STÄNDIGE VERTRETUNG DER BUNDESREPUBLIK DEUTSCHLAND BEI DEM BÜRO DER
VEREINTEN NATIONEN UND BEI DEN ANDEREN INTERNATIONALEN ORGANISATIONEN, WIEN

MISSION PERMANENTE DE LA REPUBLIQUE FEDERALE D'ALLEMAGNE AUPRES DE
L'OFFICE DES NATIONS UNIES ET DES AUTRES ORGANISATIONS INTERNATIONALES, VIENNE

Ref.: 467.53

Note No.: 57/03

Note Verbal

The Permanent Mission of the Federal Republic of Germany to the Office of the United Nations and to the other International Organisations, Vienna, presents its compliments to the Director General of the International Atomic Energy Agency and has the honour to refer to its Verbal Note No. 124/97 of 1 December 1997 enclosing Guidelines specifying the policies which the Government of the Federal Republic of Germany has decided to apply to the management of plutonium.

In keeping with Germany's commitment under these Guidelines, the Government of the Federal Republic of Germany encloses in this Note the data on the plutonium inventory on German territory as of 31 December 2002.

As there is no reprocessing facility in Germany, the questions 1 of Annex B and 2 of Annex C are not applicable. Regarding any material that has been shipped abroad, especially for reprocessing, Germany would like to point out that the data on such material are not available. This should be taken into consideration whenever these data are used for statistical purposes.

Mr. Mohamed ElBaradei
Director General of the
International Atomic Energy Agency
Vienna International Centre
Vienna

In addition, the inventory of Highly Enriched Uranium (HEU) is included on a voluntary basis. HEU is being used in some research reactors. The HEU in storage consists mainly of spent fuel of the pebble-bed high temperature reactor in storage casks. Smaller amounts in bulk form are handled in various research facilities. As there is no activity in Germany on high enrichment of Uranium, there is no HEU inventory in facilities/locations engaged in enrichment activities.

All nuclear materials within the states of the EU are property of the European Union, represented by the EURATOM Supply Agency.

The Permanent Mission of the Federal Republic of Germany to the Office of the United Nations and to the other International Organisations, Vienna, avails itself of this opportunity to renew to the Director General of the International Atomic Energy Agency the assurances of its highest consideration.

Vienna, 22 September 2003
Ge/bl

ANNUAL FIGURES FOR HOLDINGS OF CIVIL UNIRRADIATED PLUTONIUM

National Totals

	31.12.2002 in tonnes	(31.12.2001) in tonnes
	<hr/>	<hr/>
1. Unirradiated separated plutonium in product stores at reprocessing plants.	0.0	(0.0)
2. Unirradiated separated plutonium in the course of manufacture or fabrication and plutonium contained in unirradiated semi-fabricated or unfinished products at fuel or other fabricating plants or elsewhere.	0.1	(0.3)
3. Plutonium contained in unirradiated MOX fuel or other fabricated products at reactor sites or elsewhere.	9.3	(9.0)
4. Unirradiated separated plutonium held elsewhere.	1.7	(1.6)
Note:		
(i) Plutonium included in lines 1–4 above belonging to foreign bodies.		
(ii) Plutonium in any of the forms in lines 1–4 above held in locations in other countries and therefore not included above.		
(iii) Plutonium included in lines 1–4 above which is in international shipment prior to its arrival in the recipient State.	0.0	(0.0)

**ESTIMATED AMOUNTS OF PLUTONIUM CONTAINED IN SPENT CIVIL
REACTOR FUEL**

National Totals

	31.12.2002 in tonnes	(31.12.2001) in tonnes
	<hr/>	<hr/>
1. Plutonium contained in spent fuel at civil reactor sites.	48.9	(46.3)
2. Plutonium contained in spent fuel at reprocessing plants.	0.0	(0.0)
3. Plutonium contained in spent fuel held elsewhere.	5.4	(5.4)

Note:

- i) The treatment of material sent for direct disposal will need further consideration when specific plans for direct disposal have concrete form
- ii) Definitions:
 - Line 1: covers estimated amounts of plutonium contained in fuel discharged from civil reactors
 - Line 2: covers estimated amounts of plutonium contained in fuel received at reprocessing plants but not yet reprocessed.

ESTIMATED AMOUNTS OF HIGHLY ENRICHED URANIUMNational Totals

	31.12.2002 in tonnes	(31.12.2001) in tonnes
	_____	_____
1. HEU contained in Research Reactors	0.04	(0.07)
2. HEU (irradiated) contained in storages	0.73	(0.73)
3. HEU in bulk form	0.03	(0.03)
