The Permanent Mission of the Russian Federation to the International Organizations in Vienna presents its compliments to the Secretariat of the International Atomic Energy Agency and has the honour to transmit the following information received from the Ministry of Defense of the Russian Federation, including photo materials, about the situation at the Zaporizhskaya NPP (ZNPP) in light of the continuing attacks of armed forces of Ukraine (AFU).

At 17:25 on August 28, 2022, the AFU used a «kamikaze drone» to damage the roof of special building No.1. The fresh fuel storage section of the special building No.1 contains 168 assemblies with American nuclear fuel from “Westinghouse”, as well as a storage facility for solid radioactive wastes.

There are no victims. The radiation situation remains normal.

The Permanent Mission of the Russian Federation requests the Secretariat to circulate this information among all IAEA Member States as soon as possible.

The Permanent Mission of the Russian Federation avails itself of this opportunity to renew to the IAEA Secretariat the assurances of its highest consideration.

Attachment: Scheme of AFU strike against ZNPP on August 28, 2022 and photos of consequences of the strike, 4 pp.
