№ 2414-1

The Permanent Mission of the Russian Federation to the International Organizations in Vienna presents its compliments to the Secretariat of the International Atomic Energy Agency and has the honour to inform about the situation at the Zaporozhskaya NPP (ZNPP) as of July 11, 2023.

In the period from July 4 to July 10, the ZNPP site and its vicinity, as well as the city of Energodar were not subject to shelling by the armed forces of Ukraine (AFU). Within this period 66 aircrafts launched by Ukraine with the aim of attacks and provocations against the plant were detected and suppressed.

Power units No. 1, No. 3 are under scheduled maintenance; No. 2, No. 4 and No. 6 – in a state of cold shutdown; No. 5 – hot shutdown.

The off-site power for the ZNPP own needs is supplied via the 750 kV “Ferrosplavnaya-1” high-voltage line and the 750 kV “Dneprovskaya” high-voltage line through the 330 kV open switchgear of the Zaporozhskaya TPP (ZaTPP).

Stocks of diesel fuel required for the operation of the plant's emergency power supply systems are sufficient for more than 23 days of operation.

As of 09:00 on July 11, the water level in the supply channel of ZaTPP is 11.08 m, the water level in the cooling pond of ZNPP is 16.47 m.

Radiation background at the ZNPP site and beyond does not exceed the established standards.

Recruitment of personnel at ZNPP continues. There are enough employees at the ZNPP to carry out the safe operation of the plant in the cold and hot shutdown mode, as well as to carry out scheduled maintenance work.

Up-to-date information on the current situation at the plant is available at ZNPP website (<https://znpp.ru/>) on the permanent webpage “Current status of the Zaporozhskaya NPP” with daily updated information.

The Permanent Mission of the Russian Federation requests the Secretariat to circulate this information among all IAEA Member States as soon as possible.

The Permanent Mission of the Russian Federation avails itself of this opportunity to renew to the IAEA Secretariat the assurances of its highest consideration.
