The Permanent Mission of the Russian Federation to the International Organizations in Vienna presents its compliments to the Secretariat of the International Atomic Energy Agency and has the honour to inform on the following.

From 12:20 to 12:30, November 2, 2023, during the rotation of the IAEA experts at the Zaporozhskaya NPP (with cease-fire regime in place) Ukrainian nationalist troops undertook seven attacks with unmanned aerial vehicles (UAVs) against the town of Energodar:

one UAV strike into the apartment building located at Stroitelei street, 19;

one UAV strike into the roof of the apartment building located at Stroitelei street, 25;

two UAV strikes into the hotel "Energodar" located at Stroitelei street, 17A;

two UAVs approaching the river bank promenade in the Park of Victory were shot down with firearms;

one UAV was suppressed by electronic warfare means and fell down in the forest next to the entry into the town in the area of security checkpoints №1 and №2.

According to preliminary information, there were no casualties as a result of these strikes.

The town of Energodar is a satellite town of the Zaporozhskaya NPP where the plant employees and members of their families live. The terrorist act of the Ukrainian side is an act of pressure against the plant personnel and contradicts the

third of seven “indispensable pillars” of ensuring nuclear safety and security during armed conflicts outlined by the IAEA Director General R.Grossi in March 2022.

The photos of consequences of some of the strikes are attached to this Note Verbale.

The Permanent Mission of the Russian Federation requests the Secretariat to circulate this information among all IAEA Member States as soon as possible.

The Permanent Mission of the Russian Federation avails itself of this opportunity to renew to the IAEA Secretariat the assurances of its highest consideration.
