PERMANENT MISSION
OF THE RUSSIAN FEDERATION TO THE
INTERNATIONAL ORGANIZATIONS
IN VIENNA

Erzherzog-Karl-Strasse 182
A-1220 Wien

Tel. (043-1) 282 53 91, 282 53 93
Fax (043-1) 280 56 87

№ 3497-н

The Permanent Mission of the Russian Federation to the International Organizations in Vienna presents its compliments to the Secretariat of the International Atomic Energy Agency and has the honour to request to circulate among all IAEA Member States as soon as possible the information on the actual situation at the Russian nuclear facility – Zaporozhskaya NPP (ZNPP).

Within the period from September 2 to September 8, 2024, 62 aerial vehicles (UAVs) launched by Ukraine with the aim of attacks and provocations against the ZNPP and the town of Energodar were suppressed. On September 7, 2024, Kiev regime hit the territory of the ZNPP transport workshop using UAV (4 km away from the plant). As a result of the detonation of the munition the roof and the gates of the seventh box were damaged.

All ZNPP's power units are in a state of cold shutdown. Power unit №1 is under scheduled maintenance.

As of 07:00 on September 9, 2024, the water level in the supply channel of Zaporozhskaya TPP is 10.57 m, the water level in the cooling pond of the ZNPP is 14.45 m.

The off-site power for the ZNPP own needs is normally supplied via high-voltage lines “Dneprovskaya” (750 kV) and “Ferrosplavnaya-1” (330 kV). On

THE SECRETARIAT OF THE
INTERNATIONAL ATOMIC ENERGY AGENCY
Vienna

September 2, 2024, high-voltage line “Ferrosplavnaya-1” (330 kV) was disconnected by automatic operation. On September 5, 2024 its work was restored.

Stocks of diesel fuel required for the operation of the plant's emergency power supply systems are sufficient for 17 days of operation.

Radiation background at the plant site and beyond does not exceed the established standards. Gamma background along the perimeter of the dry storage facility of spent nuclear fuel – 15 microR/hour, at the industrial site – 10 microR/hour.

Recruitment of personnel at the ZNPP continues. There are enough employees at the ZNPP to carry out its safe operation in the cold and hot shutdown modes, as well as to carry out scheduled maintenance work.

Federal state supervision in the field of the use of nuclear energy is carried out at the ZNPP site in the regime of constant supervision by the Russian regulatory authority – Rostechnadzor. Within the period from September 2 to September 9, 2024, authorized personnel of Rostechnadzor carried out four control and supervision procedures at the ZNPP (one of them – with the participation of the IAEA Secretariat experts).

At the ZNPP, upon the IAEA Director General R.Grossi's request and with the consent of the Russian Federation, there are four specialists from the IAEA Secretariat, who arrived at the plant during the regular rotation that took place on September 4, 2024.

Within the period from September 2 to September 6, 2024, the Agency experts visited the dry nuclear spent fuel storage, 750 kV open switchyard, plant's training center, and were present during the testing of the backup diesel power plant of the second safety system train of power unit №6.

The Russian Federation continues to make efforts aimed at improving the quality of life of the ZNPP personnel and the working conditions at the plant. Registration of compulsory and voluntary health insurance programmes, as well as provision of financial assistance to the ZNPP employees, continue. The plant

personnel undergoes periodic medical examinations in accordance with the approved schedule. As of September 9, 2024, 2489 employees underwent medical examination. Rehabilitation and health-improving programmes (distribution of vouchers to sanatorium-resorts) for the ZNPP personnel and their families, including children, are also implemented.

Data on the situation at the plant is available at ZNPP website (<https://znpp.ru>), in the section “Current status of the Zaporozhskaya NPP” with daily updated information.

The Permanent Mission of the Russian Federation avails itself of this opportunity to renew to the IAEA Secretariat the assurances of its highest consideration.

Vienna, "13" September 2024
