Aim of clinical audit

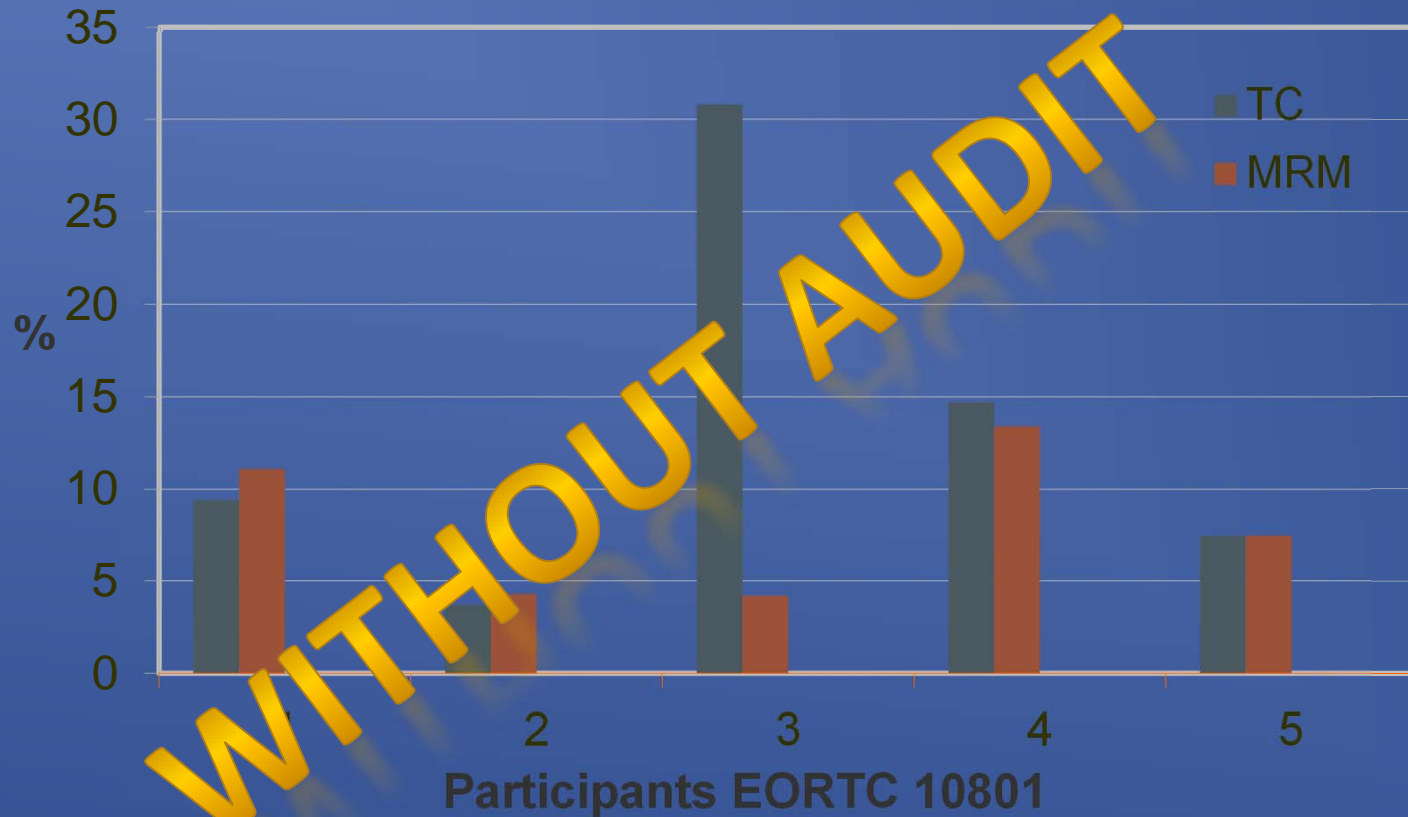

Example

Local recurrence after conservative breast cancer treatment in 5 hospitals

Example

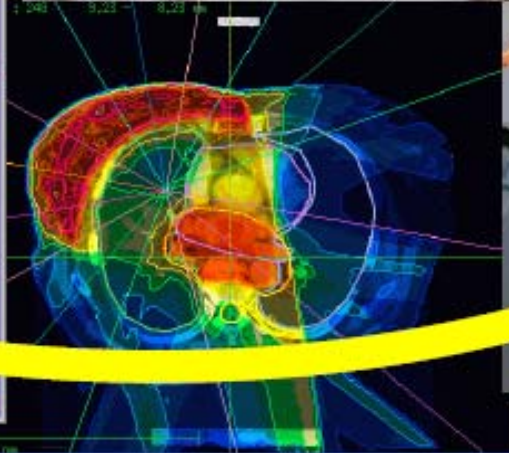

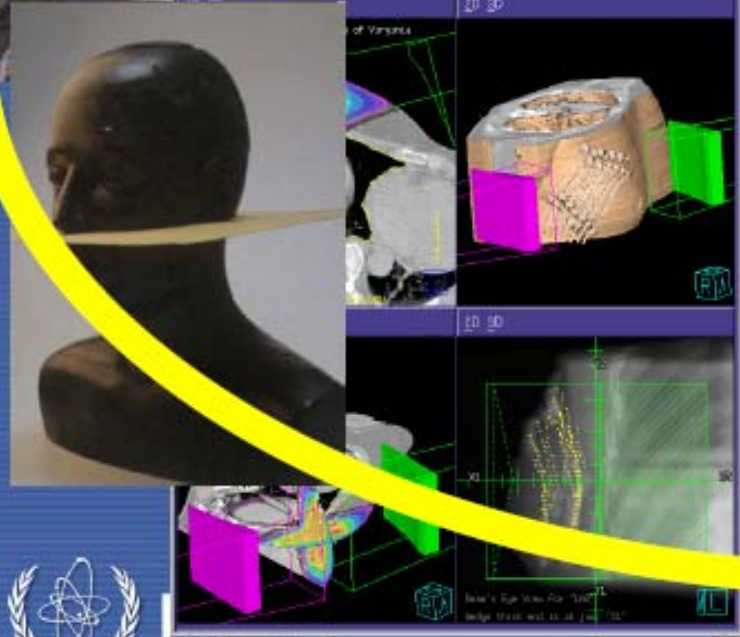

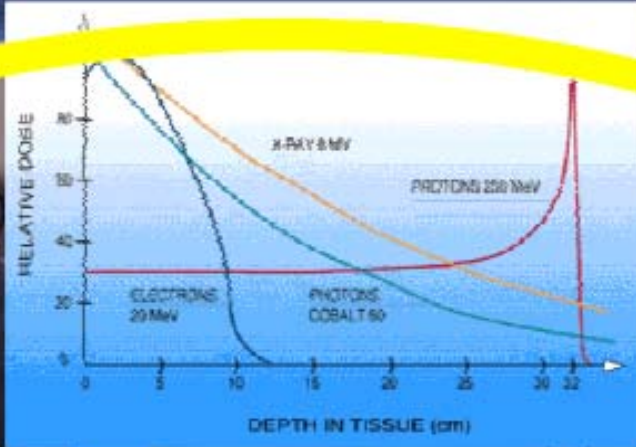

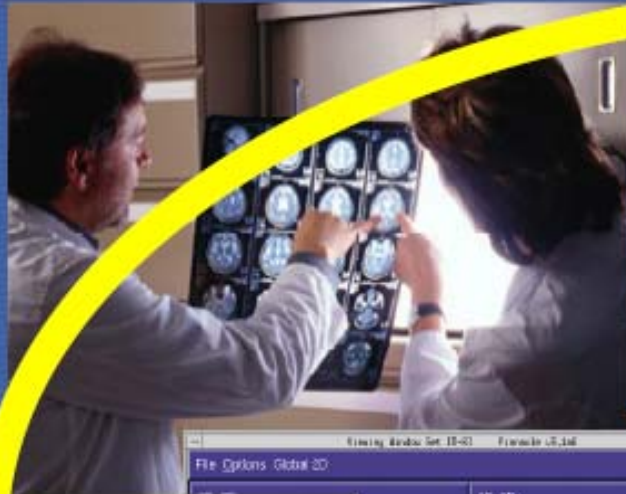

Local recurrence after conservative breast cancer treatment in 5 hospitals

Example

Local recurrence after conservative breast cancer treatment in 5 hospitals

Comprehensive RT audit

Trust and Transparency in Peer Review

**PEER
REVIEW**
WEEK

WILEY

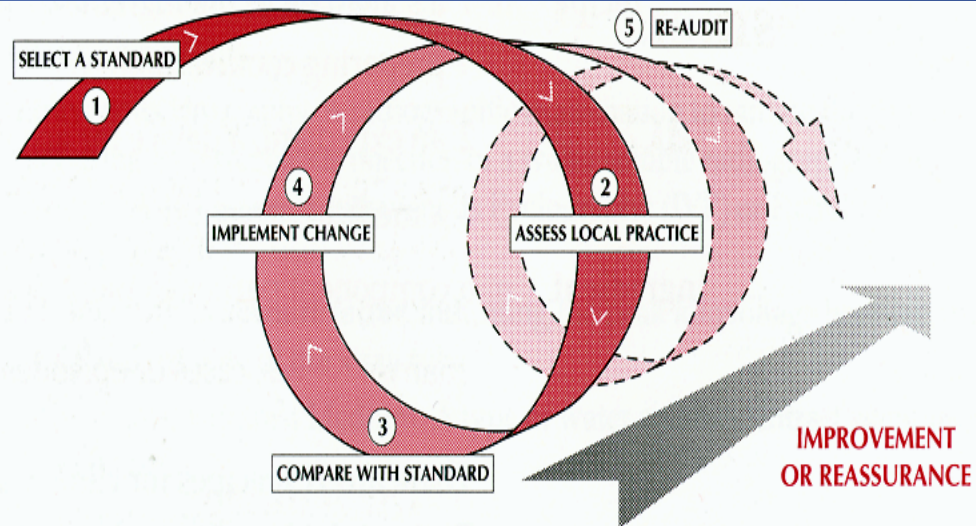

Peer review is key to success

Purpose of an audit

- To collect *objective* evidence to permit an informed judgment about the status of the quality management system to give assurance of Quality of *practice* and delivery of treatment.

Quality is not a goal in life...

Figure 2 Preferred:
the audit cycle
summarised as a spiral
of repeating cycles.

Quality is a way of life...
