

## **Julie Wetter**

**Groote Schuur Hospital and University of Cape Town, South Africa**

Julie Wetter is a clinical oncologist working in an academic hospital where she is responsible for patient care as well as for the teaching and training of medical students and residents. Her areas of interest are cancers of the head, neck, eyes and skin. She is trained in the use of both radiotherapy and chemotherapy. In addition to external beam radiotherapy, she also uses brachytherapy to treat selected tumours.
